Quality at its Core

Beautiful finish

Maibec CanExel engineered siding is made with our exclusive premium thermoset paint. We apply multiple coats of this industrial paint and then cure it at very high temperatures to ensure the ultimate resistance against fading, cracking, splitting and peeling.

Authentic woodgrain look

Woodgrain patterns are not repeated endlessly. Maibec CanExel presents a wide variety of woodgrain patterns that create an amazing, authentic and exclusive style. Combine that with the look of authentic wood fibre for a result that will meet your expectations.

Lasting durability

Don't be fooled by imitations! Maibec CanExel is the one and only high-density fibre (HDF) engineered siding. It undergoes rigorous paint and substrate testing with prolonged exposure to UV rays, freezing cold and intense heat to ensure it can stand up to extreme outdoor climates. Each and every board must prove that it's worthy of the Maibec CanExel name. Come rain, snow or sun, you can count on Maibec CanExel engineered siding for decades to come.

Maibec CanExel's warranty offers peace of mind

Maibec CanExel's warranty offers peace of mind.Enjoy peace of mind with warranties you can count on. Founded on a culture of commitment, responsibility, transparency and backed by over 40 years of expertise.

• 25-year limited warranty against buckling, peeling, separating, and chipping
