Care and Maintenance Instructions

1. Wash the siding with an ordinary long-handled car washing brush that fastens to your hose, available at your auto supply store. It lets you wash the siding just like you wash your car.

2. If the dirt is hard to remove, such as soot and grime found in industrial areas, wipe the siding with a solution of:
   
   - 1/3 cup powder detergent
   - 2/3 cup household cleaner
   - 1 gal. water

3. If mildew is a problem in your area, use the solution above, but substitute 1 quart liquid laundry bleach with 1 quart water.

4. Where the house is extremely dirty it is recommended that you start washing from the bottom and go to the top rinsing frequently. Cleaning solutions should be permitted to stand on the surface of the siding for several minutes before rinsing.
